Notice No.3

Rules and Regulations for the Classification of Offshore Units, July 2022

The status of this Rule set is amended as shown and is now to be read in conjunction with this and prior Notices. Any corrigenda included in the Notice are effective immediately.

Please note that corrigenda amends to paragraphs, Tables and Figures are not shown in their entirety.

Issue date: March 2023

Amendments to	Effective date	IACS/IMO implementation (if applicable)
Part 1, Chapter 2, Section 2	1 July 2023	N/A

Part 1, Chapter 2
Classification Regulations

■ *Section 2*
Definitions, character of classification and class notations

2.5 Class notations (machinery)

(Part only shown)

2.5.1 The following class notations are associated with machinery construction and arrangements, and may be assigned as considered appropriate by the Classification Committee:

LFPF (GF, NG or **EG** or **LP** or **HG** or **ML)** Low flashpoint fuel.

EACCS() This class notation will be assigned where the Emissions Abatement Carbon Capture and Storage system has been designed, constructed, arranged, installed and tested in accordance with LR's *Rules and Regulations for the Classification of Ships*.

Application of the **EACCS** notation does not infer that the installation will meet the Statutory Requirements for emissions regulation. This notation is to be supplemented by additional characters depending on the carbon capture application (*see Rules and Regulations for the Classification of Ships, Pt 5, Ch 24, 1.2 Class notation and descriptive note 1.2.8* to *Pt 5, Ch 24, 1.2 Class notation and descriptive note 1.2.10*).
